MULTIPLICATION

Reception:

EHLT are implementing Mastering Number at Reception in September 2024.

The programme aims to secure firm foundations in the development of good number sense for all children from Reception through to Year 1 and Year 2. The aim over time is that children will leave KS1 with fluency in calculation and a confidence and flexibility with number. Attention will be given to key knowledge and understanding needed in Reception classes, and progression through KS1 to support success in the future. Over the year, the children will experience using a range of resources and representations.

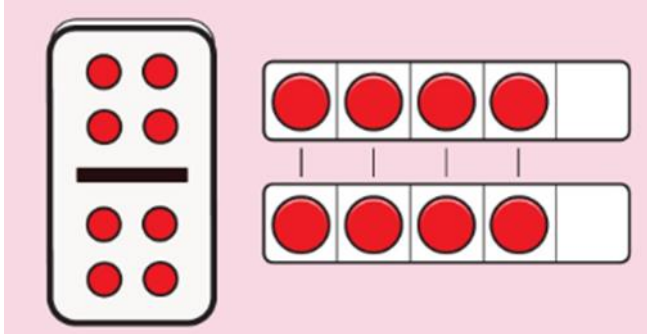

Research shows that children with secure 'number sense' early on will make more progress later on in maths and across the curriculum.

Using known facts to multiply 10s, for example 3×40

Explore the relationship between known times-tables and multiples of 10 using place value equipment.

Make 4 groups of 3 ones.

Make 4 groups of 3 tens.

*What is the same?
What is different?*

Understand how unitising 10s supports multiplying by multiples of 10.

*4 groups of 2 ones is 8 ones.
4 groups of 2 tens is 8 tens.*

$$4 \times 2 = 8$$
$$4 \times 20 = 80$$

Understand how to use known times-tables to multiply multiples of 10.

$$4 \times 2 = 8$$
$$4 \times 20 = 80$$

Multiplying a 2-digit number by a 1-digit number, expanded column method

Use place value equipment to model how 10 ones are exchanged for a 10 in some multiplications.

$$3 \times 24 = ?$$

$$3 \times 20 = 60$$

$$3 \times 4 = 12$$

$$3 \times 24 = 60 + 12$$

$$3 \times 24 = 70 + 2$$

$$3 \times 24 = 72$$

Understand that multiplications may require an exchange of 1s for 10s, and also 10s for 100s.

$$4 \times 23 = ?$$

$$4 \times 23 = 92$$

$$4 \times 23 = 92$$
